

Project Bags 2.0 ~ Class by Kathy Miners

Kathy's interest in quilting began around 1998, when her local knitting shop closed and she needed a new hobby. Little did she know, a few years later she would be the owner of that local quilt shop. She was fortunate to be the owner for 9 years, before retiring and moving to southern Oregon.

Her love of bag making started around 2008 and quickly became such an obsession that she became known as the Bag Lady. At her shop she held monthly classes for a new bag, or purse, or the Tools of the Trade Bag that will be taught for the

Guild in May.

She hopes that she can help you take away the intimidation of making something other than a quilt. This is a FUN project and you'll be thrilled with the results! Each of you should walk away at the end of class with a finished, or nearly finished bag.

This project will give you the confidence for a larger bag project. You'll learn how to install a zipper, work vinyl and walk away from a class with a finished project.

Wise words from Kathy,

"These project bags are great for organizing everything you need for each of your projects, these handy zippered bags come in four sizes have sturdy quilted bases and a vinyl window for visibility of contents. Pattern includes instructions for two styles of border on the bottom and four different sizes of bags. These are an excellent way to use up fat quarter and scraps from your stash. Need an add-on gift? Use fabric from that quilt you're making for your newborn grandchild. Grandsons birthday coming up? These make nice bags for pencils, pens, and other school items. Think outside the box and the creative opportunities are endless.

I'll also bring some mesh with me to class and give a quick demo on how to install that in a project bag as well."
