

Beginning Paper Piecing ~ March 10, 2023

Freezer paper Technique

Paper piecing is a wonderful technique where an inexperienced quilter can create intricate and beautiful designs. The only issue is that you have to tear out all of those tiny, tiny pieces of paper.

With the freezer paper technique, you do not sew through the paper – you fold back the template and sew through the fabric only. There is no tearing of paper! And you can use the paper pattern over and over again.

Come and learn a new skill in this technique class.

Instructor Anna DeHoog has been sewing since early childhood. She purchased her first sewing machine in 1992 and made her first quilt which promptly fell apart.

An avid learner, Anna has taken many classes over the past 30 years and honed her quilting skills. One of her favorite techniques is to convert paper patterns to freezer paper patterns – making the project so much simpler.

Supply List to Follow

Beginning Paper Piecing ~ March 10, 2023

Teacher is Anna DeHoog

_____ Please enroll me in the Beginning Paper Piecing Class - March 10, 2023 9am to 4pm
